

## **309 POLICY - Red Flags Rules and Identity Theft Prevention**

### **309.1 Statement of Policy**

Redlands Community College developed this policy pursuant to the Federal Trade Commission's ("FTC") Red Flags Rules ("Rules"), which implement Section 114 of the Fair and Accurate Credit Transactions Act of 2003 [16 C.F.R § 681.2]. Under the rules, every financial institution and creditor (including universities and colleges receiving certain federal grants as well as delaying payments and/or issuing debit cards must comply with these rules) is required to establish an Identity Theft Prevention Program tailored to the size, complexity, and nature of its operation.

### **309.2 Scope**

Redlands Community College is committed to the intent of the Red Flags Rules and understands the importance to its constituents. Protecting individual privacy and the College from data loss and from identity theft is essential to the College and to the RCC Board of Regents.

### **309.3 Purpose**

The College strives to make reasonable efforts to detect, prevent, and mitigate identity theft. This policy and the related procedure is intended to help protect students, faculty, staff, and other constituents and the College from damages related to the fraudulent activity of identity theft. It is not intended to specify all the details of or identify all possible instances for identity theft. This policy and the related procedure requires departments to maintain written procedures, identify specific "Red Flags", outline appropriate responses to "Red Flags" that are detected to mitigate identity theft, and establishes recommended employee training.

### **309.4 Related Procedure**

The Procedures section of the Policies and Procedures Manual contains a procedure related to this policy, with definitions, general guidelines, and information on identification and detection of “Red Flags”, prevention, mitigation, and response to identity theft. The definitions in the related procedure are incorporated by reference into this policy.

Adopted December 2010

#### **A. Oversight**

Responsibility for developing, implementing, and updating this program lies with the Program Administrator, who is the Chief Financial Officer or his or her appointee. The Program Administrator will be responsible for ensuring appropriate training of College staff on the Program, for reviewing any staff reports regarding the detection of Red Flags and the steps for preventing and mitigating identity theft, determining which steps of prevention and mitigation should be taken in particular circumstances and considering periodic changes to the Program.

B. Staff Training and Reports

College staff responsible for implementing the Program shall be trained either by or under the direction of the Program Administrator in the detection of Red Flags and the responsive steps to be taken when a Red Flag is detected. College staff shall be trained, as necessary, to effectively implement the Program. Once trained, employees shall sign a document to be stored in their personnel file stating that they have been trained and understand this policy.

College employees are expected to notify the Program Administrator once they become aware of an incident of identity theft or of the College's failure to comply with this program. At least annually or as otherwise requested by the Program Administrator, College staff responsible for development, implementation, and administration of the Program shall report to the Program Administrator on compliance with this program. The report should address such issues as effectiveness of the policies and procedures in addressing the risk of identity theft in connection with the opening and maintenance of Covered Accounts, service provider arrangements, significant incidents involving identity theft and management's response, and recommendations for changes to the Program.

C. Service Provider Arrangements

In the event the College engages a service provider to perform an activity in connection with one or more Covered Accounts, the College will take the following steps to ensure the service provider performs its activity in accordance with reasonable policies and procedures designed to detect, prevent, and mitigate the risk of identity theft.

For the effectiveness of this Identity Theft Prevention Program, knowledge about specific Red Flags identification, detection, mitigation and prevention practices may need to be limited to the Identity Theft Program Committee and to those employees with a need to know them. Any documents that may have been produced or are produced in order to develop or implement this program that list or describe such specific practices and the information those documents contain are considered "confidential" and should not be shared with other employees or the public. The Program Administrator shall inform the Committee and those employees with a

need to know the information of those documents or specific practices which should be maintained in a confidential manner.

e. Program Updates

The Program Administrator will annually review and update this document to reflect changes in risks to account holders/students and the soundness of the College from identity theft. In doing so, the Program Administrator will consider the College's experiences with identity theft situations, changes in identity theft methods, changes in identity theft detection and prevention methods, and changes in the College's business arrangements with other entities. After considering these factors, the Program Administrator will determine whether changes to the Program, including the listing of Red Flags, are warranted. If warranted, the Program Administrator will revise this document and will ensure ongoing support of the Red Flags regulation.
